Summary of Findings - Recommendations - Conclusions

February 23, 2011

> Client Information

Environmental Property Investigations, Inc. has been retained to conduct an Environmental Site Assessment (ESA 15270-00) Phase One at the vacant lot situated on the SEC of the intersection of E. Mississippi Ave. and S. Gun Club Road, Aurora, CO. This report is provided to Mr. Alan Westfall, Murphy Creek, LLC, 7964 Kelty Trail, Franktown, CO 80116.

The property was inspected during daylight hours. The weather was clear and sunny with dry surface conditions. There was no impediment to the visual inspection of the subject property.

> Purpose of Site Assessment

This assessment is in compliance with the ASTM standard E-1527-05 and is used to determine the recognized environmental conditions that would indicate past or current violations of State or Federal regulations that pertain to CERCLA liability.

Scope of Services

This assessment is in compliance with the ASTM standard E-1527-05 and is used to determine the recognized environmental conditions that would indicate past or current violations of State or Federal regulations that pertain to CERCLA liability. To complete the assessment, EPI conducted the following tasks:

- 1. Reviewed historical Site use to 1940, or the earliest developed date to 1900 (when historical resources were readily available);
- 2. Interviewed Site representatives and occupants regarding current Site operations and past Site uses;
- 3. Reviewed an ASTM one-mile radius search of State and Federal databases;
- 4. Reviewed records currently on file with Federal, State and Local regulatory Agencies:
- 5. Conducted an on-Site inspection of the Property;
- 6. Obtained current photographs of the Site, including Recognized Environmental Conditions at the subject Site (if any);
- 7. Conducted an off-site inspection of adjacent and near-by properties with the potential to impact the Site;
- 8. Inspected the Site for non-scope Recognized Environmental Conditions (if any); and,
- 9. Limited environmental lien research

With Offices in Colorado, Texas, California and Tennessee

Environmental Property Investigations, Inc.

With Offices in Colorado, Texas, California and Tennessee

> Physical Location and Property Description/Site Inspection and Observations

The property is currently an un-occupied vacant lot that has been graded and filled. The lot has been extensively back-filled with what appears to be native soils from local project development. The site previously drained steeply toward the west side where a wetland drain resides. No spills, stains, dumping, or other impacts are noted at the site currently. There are currently no additional observed or recognized environmental conditions at the site at this time.

> Environmental Setting

The property is located in a rural commercial development area of eastern Arapahoe County, CO. No known environmental impacts are observed in the subject parcel area. No known or reported impacts in areas at the site or immediately upgradient to the site are known or reported.

Topography

The property is located on the Murphy Creek, Colorado 7.5 minute Quadrangle Map (USGS, 1965 photo revised in 1994). Based on review of the map, it appears that the area of the site slopes gently to the west, towards the down gradient wetland drainage.

Geology

Review of the Geologic Map of the Colorado Basin, published by the USGS and dated 1974, indicated that the property is located along the Rocky Mountain Front Range physiographic province of North America. In the area of the subject site, near-surface geology is reported to consist of sandy alluvial deposits underlain by inter-bedded clays, shales, and coarse sands overlying granite bedrock.

Hydrology

Review of the Water Resources Data Report for the Denver Groundwater Basin, published by the Colorado Department of Water Resources and dated 1997, indicates that first groundwater beneath the subject site is located in an unnamed, perched aquifer formation with depths of approximately 20 to 30 feet below ground surface (bgs). Beneath the unconfined aquifer lie the Denver Basin Aquifer (from approximately 100 to 1,000 feet thick), the Arapahoe Aquifer (from approximately 300 to 400 feet thick), and the Laramie/Fox Hills Aquifer (from approximately 250 to 350 feet thick).

Shallow groundwater flow is expected to follow the ground level slope of surface elevations towards the nearest dominant open body of water or intermittent stream. The direction of this flow at the site is anticipated to be towards the west.

With Offices in Colorado, Texas, California and Tennessee

Historical Occupancy and Past Uses

Historical occupancy was determined through review of historical city directories, historical aerial photographs, and on-site interviews. Based on review of these sources, it appears that the site has not been previously developed. No records of previous uses of the property were found that would present an adverse impact to the site.

• Aerial Photography and Sanborn Maps

Aerial photography exists for the area of the property for the years 1950 (USDA / NRCS), 1974, 2003, and 2010. Based on review of the available aerial photographs, it appears that the site has been vacant prior to the proposed development. No Sanborn Map Coverage was available for the subject property.

• Database Review

The subject site is not identified on the regulatory database. No UST facilities or other possible environmental impacts are noted in the immediate area. No listed sites are known or otherwise observed in the area.

Adjacent Property Identification

The property is bound to the north by a residential area (up-gradient). The area to the west is bound by a vacant area (down-gradient). The adjacent property to the east is vacant and sparsely developed with residential housing (upgradient). The property to the south consists of an undeveloped vacant lot (cross and down-gradient). None of the adjacent properties appeared to pose an environmental risk to the subject site.

Summary of Non-Scope Issues

No non-scope issues were apparent during the site inspection.

> Conclusions

No Recognized Environmental Conditions were noted at the site at this time.

Recommendations

It is EPI's opinion that no additional investigation of the property is required. This is our professional opinion and summary of findings and recommendations.

With Offices in Colorado, Texas, California and Tennessee

Signature and Declarations

Environmental Property Investigations, Inc. senior personnel have completed the due diligence report according to the requirements of the ASTM E-1527-05 guidance document. EPI, Inc., EPI personnel, employees, or otherwise have no financial interest in the property of the transaction. This report, and its compiled contents, completes the environmental site assessment with no amendments or alterations from what is stated and reported herein.

I declare that, to the best of my professional knowledge and belief, I meet the definition of an Environmental Professional as defined in §3 12.10 of 40 CFR Part 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

2.0 RADON

Is the site located in an area of increased radon levels?	No
Have increased radon levels been specifically identified at the site?	No
If the site is located in an area of increased radon levels, are the site building(s) occupied for more than 12 hours per day?	No
Recommendation for Additional Radon Investigation?	No
Description of Concern/Reason for Opinion – Vacant lot	

3.0 LEAD-BASED PAINT

Are the painted surfaces at the site (if any) in bad condition, with significant peeling, chipping or cracking?	No
Are the painted surfaces at the site (if any) older than 1979?	No
Are the structures at the site subject to HUD Title X reporting?	No
Are any records relating to the HUD Title X reporting available for review?	No
Recommendation for Additional Lead-Based Paint Investigation?	No
Description of Concern/Reason for Opinion:	

With Offices in Colorado, Texas, California and Tennessee

4.0 LEAD IN DRINKING WATER/WATER QUALITY

Based on age and construction, are soldered joints probable in the site structure(s)?	No
If serviced by a municipal water supply, are there any records indicating increased levels of organic or inorganic contaminants?	No
If serviced by a private water well, are there any records indicating increased levels of organic or inorganic contaminants?	No
If serviced by a private water well, are there any records indicating the well is out of compliance with existing testing and permitting requirements?	No
Recommendation for Additional Lead In Drinking Water/ Water Quality Investigation?	No
Description of Concern/Reason for Opinion: Vacant lot	I

5.0 DESIGNATED WETLANDS/POTENTIAL WETLANDS

Does the site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that would currently be described as a wetland?	Yes	
Does the site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that are currently dry but that could have been described as a wetlands in the past?	Yes	
Has the United States Army Corp of Engineers identified any portion of the site as a wetland?		No
Does an adjoining site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that would currently be described as a wetlands?	Yes	
Does an adjoining site encompass any rivers, streams, creeks, ditches, ponds, lakes or marshy areas that are currently dry but that could have been described as wetlands in the past?	Yes	
Has the US Army Corp of Engineers identified any portion of an adjoining site as a wetlands?	Yes	
Recommendation for Additional Wetlands Investigation?		No
Drainage to south is likely qualified wetland. No encroachment allowed into drainage		1

6.0 ENDANGERED AND THREATENED SPECIES

Has the United States Fish and Wildlife Service identified any endangered species on the subject site?	No
Has the United States Fish and Wildlife Service identified any threatened species on a site located adjacent to the subject property?	No
Recommendation for Additional Endangered or Threatened Species Investigation?	No
Description of Concern/Reason for Opinion: None known	

8.0 REGULATORY COMPLIANCE

Is there evidence to suggest that the site may be in violation of Federal, State or Municipal environmental regulatory obligations?	No
Does the regulatory database indicate that the site is in violation of any Federal, State or Municipal	No

With Offices in Colorado, Texas, California and Tennessee

environmental regulations?	
Recommendation for Additional Regulatory Compliance Investigation?	No
Description of Concern/Reason for Opinion: None	

9.0 INDOOR AIR QUALITY

Is there evidence to suggest that the site may be in violation of any State, Federal or Municipal air emissions permit(s)?	No
Are any unusual fumes, odors or vapors present?	No
If any unusual fumes, odors or vapors are present, is the site used for residential purposes?	No
Recommendation for Additional Indoor Air Quality Investigation?	No
Description of Concern/Reason for Opinion:	
No issues	

10.0 CULTURAL, ECOLOGICAL AND ARCHEOLOGICAL RESOURCES

Has any portion of the site been identified on the National Historic Register?	No
Given the historical use and/or architectural history of the site, is it likely that the site would be considered for listing on the National Historic Register?	No
Could natural features at the site (if any) be considered a unique ecological resource of importance to Federal, State or Municipal agencies? (<i>i.e., unique ecological features that may be important to protect from development</i>)	No
Is the site located within American Indian Tribal Lands?	No
Was any evidence of American Indian burial mounds, pottery shards, or other archeological artifacts noted?	No
Recommendation for Additional Cultural, Ecological or Archeological Resource Investigation?	No
Description of Concern/Reason for Opinion: No issues	I

11.0 HIGH-VOLTAGE POWER LINES/POWER SUBSTATIONS

Are high-voltage power lines located on or near the site?	No
Are electrical substations located on or near the site?	No
Has the site reported any unusual static charges or significantly higher electro-magnetic forces?	No
Recommendation for Additional High-Voltage Power Lines or Electrical Substation Investigation?	No
Description of Concern/Reason for Opinion None present	

With Offices in Colorado, Texas, California and Tennessee

12.0 MOLD

Any visual indications of mold	No	
Any water or other concerns related to possible mold growth	No	
Recommendation for Additional Mold Investigation?	No	
Description of Concern/Reason for Opinion:		

13.0 METHAMPHETAMINE LABORATORIES

Recommendation for Additional Methamphetamine Investigation?		No
Description of Concern/Reason for Opinion:	I	
None noted		

14.0 MISCELLANEOUS

Recommendation for Additional Investigation?	No
Description of Concern/Reason for Opinion:

Ronald West Professional Biography

Mr. West is a graduate of Mesa State College (Asc. Chemistry) and Colorado State University (BSc. Microbiology and Chemistry, Environmental Toxicology, and Doctoral Candidate Microbiology / Biochemistry). Upon completion he was employed by the University Health Science Center as the principal investigator for a project to recertify the use of chlorine for the disinfection of water and wastewater. The project was for the USEPA-EMSL Cincinnati labs, the Colorado Department of Health, Metro-Denver Waste Water, and the Denver Water Department. Upon completion of this investigation Mr. West was employed as an analytical chemist at Metro-Denver Waste Water District. Mr. West entered the private sector of the environmental market as a Senior applications specialist and Regional Manager for companies involved in the analytical testing of inorganic and organic pollutants in water, waste water and soils. This included plant process streams and effluent monitoring events in conjunction with NPL and CERCLIS sites.

Mr. West has provided consulting services to over 1100 companies in the United States, Canada, and Mexico in the past 20 years. These companies have been involved in the chemical, petrochemical, pharmaceutical, food, mining, biotech, rubber industry, Real Estate, Banking, and Investment companies. These projects included the writing of standard operating procedures for worldwide operations, method development, and guidance with respect to SDWA, RCRA, CERCLA, NIOSH, and CLP methods. Mr. West is involved in the daily operations of the company in reviewing all technical papers, remediation projects, and daily activities of the professional staff. Mr. West has performed over 3500 Phase One site investigations on properties located across the country. Mr. West has also performed over 1000 Phase II surface and sub-surface investigations nationally. Mr. West has been involved in the remediation and closure of over 100 sites across the country.

Mr. West is OSHA 40 Hour certified, is a licensed asbestos inspector in the State of Colorado, is a certified AHERA inspector, and is the EPI Corporate Health and Safety Officer. Mr. West is a member of the American Chemical Society, American Society of Microbiology, American Society of Testing and Materials, American Foundrymen's Society, Clandestine Laboratory Investigators Association, and the National Academy of Environmental Toxicologists and Chemists, and the American Society of Environmental Consultants. Mr. West has also served on numerous ASTM methods committees.

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

2/23/11

Sanborn® Library search results Certification # 13BB-4397-B73C

The Sanborn Library includes more than 1.2 million Sanborn fire insurance maps, which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

Library of Congress
University Publications of America
EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

EPI - Envtl. Prop. Invest. Inc (the client) is permitted to make up to THREE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

DOD: Consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

A review of the DOD list, as provided by EDR, and dated 12/31/2005 has revealed that there is 1 DOD

Address

site within approximately 1 mile of the target property.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/31/2010 Date Data Arrived at EDR: 01/13/2011 Date Made Active in Reports: 01/28/2011 Number of Days to Update: 15 Source: EPA Telephone: N/A Last EDR Contact: 01/13/2011 Next Scheduled EDR Contact: 04/25/2011 Data Release Frequency: Quarterly

NPL Site Boundaries

EPA Region 5 Telephone 312-886-6686

EPA Region 10 Telephone 206-553-8665

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/31/2010 Date Data Arrived at EDR: 01/13/2011 Date Made Active in Reports: 01/28/2011 Number of Days to Update: 15 Source: EPA Telephone: N/A Last EDR Contact: 01/13/2011 Next Scheduled EDR Contact: 04/25/2011 Data Release Frequency: Quarterly

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 09/30/2010 Date Data Arrived at EDR: 10/01/2010 Date Made Active in Reports: 01/28/2011 Number of Days to Update: 119 Source: EPA Telephone: 703-412-9810 Last EDR Contact: 12/30/2010 Next Scheduled EDR Contact: 04/11/2011 Data Release Frequency: Quarterly

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPAa??s Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 12/10/2010 Date Data Arrived at EDR: 01/11/2011 Date Made Active in Reports: 02/16/2011 Number of Days to Update: 36 Source: Environmental Protection Agency Telephone: 703-603-8704 Last EDR Contact: 01/11/2011 Next Scheduled EDR Contact: 04/25/2011 Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 06/23/2009 Date Data Arrived at EDR: 09/02/2009 Date Made Active in Reports: 09/21/2009 Number of Days to Update: 19 Source: EPA Telephone: 703-412-9810 Last EDR Contact: 12/01/2010 Next Scheduled EDR Contact: 03/14/2011 Data Release Frequency: Quarterly

Federal RCRA CORRACTS facilities list

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 05/25/2010 Date Data Arrived at EDR: 06/02/2010 Date Made Active in Reports: 10/04/2010 Number of Days to Update: 124 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 02/14/2011 Next Scheduled EDR Contact: 05/30/2011 Data Release Frequency: Quarterly

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 02/17/2010 Date Data Arrived at EDR: 02/19/2010 Date Made Active in Reports: 05/17/2010 Number of Days to Update: 87 Source: Environmental Protection Agency Telephone: 303-312-6149 Last EDR Contact: 01/06/2011 Next Scheduled EDR Contact: 04/18/2011 Data Release Frequency: Quarterly

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 02/17/2010 Date Data Arrived at EDR: 02/19/2010 Date Made Active in Reports: 05/17/2010 Number of Days to Update: 87 Source: Environmental Protection Agency Telephone: 303-312-6149 Last EDR Contact: 01/06/2011 Next Scheduled EDR Contact: 04/18/2011 Data Release Frequency: Quarterly

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

State- and tribal - equivalent CERCLIS

SHWS: This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list. State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

State and tribal landfill and/or solid waste disposal site lists

SWF/LF: Solid Waste Sites & Facilities

Solid Waste Facilities/Landfill Sites. SWF/LF type records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 04/07/2010 Date Data Arrived at EDR: 05/21/2010 Date Made Active in Reports: 05/25/2010 Number of Days to Update: 4 Source: Department of Public Health & Environment Telephone: 303-692-3300 Last EDR Contact: 02/18/2011 Next Scheduled EDR Contact: 05/30/2011 Data Release Frequency: Annually

State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank List

Leaking Underground Storage Tank Incident Reports. LUST records contain an inventory of reported leaking underground storage tank incidents. Not all states maintain these records, and the information stored varies by state.

Date of Government Version: 12/16/2010 Date Data Arrived at EDR: 12/20/2010 Date Made Active in Reports: 01/11/2011 Number of Days to Update: 22 Source: Department of Labor and Employment, Oil Inspection Section Telephone: 303-318-8521 Last EDR Contact: 12/13/2010 Next Scheduled EDR Contact: 03/28/2011 Data Release Frequency: Quarterly

TRUST: Lust Trust Sites

Reimbursement application package. The 1989 Colorado General Assembly established Colorado's Petroleum Storage Tank Fund. The Fund reimburses eligible applicants for allowable costs incurred in cleaning up petroleum contamination from underground and aboveground petroleum storage tanks, as well as for third-party liability expenses. Remediation of contamination caused by railroad or aircraft fuel is not eligible for reimbursement. The Fund satisfies federal Environmental Protection Agency financial assurance requirements. Monies in the Fund come from various sources, predominantly the state environmental surcharge imposed on all petroleum products except railroad or aircraft fuel.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Other Ascertainable Records

RCRA-NonGen: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

There were nine uranium mill tailings sites in Colorado designated for cleanup under the federal Uranium Mill Tailings Radiation Control Act. These nine sites, know commonly as UMTRA sites, were remediated jointly by the State of Colorado and the U.S. Department of Energy during the late 1980's and early 1990's. Mill tailings were removed from 8 of the mill sites and relocated in engineered disposal cells. A disposal cell is designed to encapsulate the material, reduce radon emanation, and prevent the movement of water through the material. At one site, Maybell, CO, the tailings were stabilized in-place at the mill site. After remediation of the tailings was completed, the State and DOE began to investigate the residual impacts to groundwater at the mill sites. The groundwater phase of the UMTRA program is on-going.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2007 Date Data Arrived at EDR: 08/26/2009 Date Made Active in Reports: 09/11/2009 Number of Days to Update: 16 Source: Department of Environmental Protection Telephone: 860-424-3375 Last EDR Contact: 12/01/2010 Next Scheduled EDR Contact: 03/07/2011 Data Release Frequency: Annually

NY MANIFEST: Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Date of Government Version: 10/28/2010 Date Data Arrived at EDR: 11/09/2010 Date Made Active in Reports: 12/17/2010 Number of Days to Update: 38 Source: Department of Environmental Conservation Telephone: 518-402-8651 Last EDR Contact: 02/09/2011 Next Scheduled EDR Contact: 05/23/2011 Data Release Frequency: Annually

PA MANIFEST: Manifest Information Hazardous waste manifest information.

> Date of Government Version: 12/31/2008 Date Data Arrived at EDR: 12/01/2009 Date Made Active in Reports: 12/14/2009 Number of Days to Update: 13

Telephone: (281) 769-2247

U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc. Telephone: 312-280-5991 The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals. Medical Centers: Provider of Services Listing Source: Centers for Medicare & Medicaid Services Telephone: 410-786-3000 A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services. Nursing Homes Source: National Institutes of Health Telephone: 301-594-6248 Information on Medicare and Medicaid certified nursing homes in the United States. **Public Schools** Source: National Center for Education Statistics Telephone: 202-502-7300 The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states. **Private Schools** Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Daycare Listing

Source: Department of Human Services Telephone: 303-866-5958

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.
